

BahamasSolarOnsiteEnergyBrand

Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish.

Offering full turnkey systems for all residential and commercial operations.

Serving all The Bahamas, from Nassau to the out islands.

We offer customized solutions tailored to your specific needs.

The first step to going solar is a site assessment.

Who supports solar power in the Bahamas?

This goal is supported by the Inter-American Development Bank (IDB) and the Bahamas Development Bank (BDB).

Currently, solar power makes up less than 1% of all energy generated in The Bahamas.

Oil is responsible for nearly all power generation with a 99% share of electricity production.

What is the Bahamas national energy policy?

The latest release of The Bahamas National Energy Policy documents the country's plans to implement renewable energy generation.

This will introduce net-metering, which is the recording of energy flows in both directions.

As the Bahamas has close to six daily peak sun hours.

Solar Power can offset a significant part of your power bill.

How long does a Bahama solar installation take?

Bahama Solar installs: Solar installation is the fun part, our customers get to see the whole system come together.

Installation timelines range from one to five days.

Installation Steps Monitoring insures your solar panels are working properly by tracking the output of your solar system.
