

Is solar energy a good option for Myanmar?

Among the renewable energy available, the potential of solar energy is one of the great interests in Myanmar.

The government of Myanmar has set a plan to electrify the whole country in 2030.

On the other hand, ASEAN has a target that is to increase 23% of Renewable Energy in ASEAN generation mix by 2025.

Who owns Myanmar's solar market?

Myanmar's solar market is predominantly led by Chinese companies, including Sandisolar.

In 2022, Sandisolar completed 36 solar projects and that number rose to 115 in 2023, with over 200 projects planned for 2024, Thi Thi Soe said.

This growth highlights the increasing use of solar energy in the Southeast Asian country, she added.

Is solar energy a viable option for Myanmar's off-grid area?

For the off-grid area, Myanmar has mainly emphasis on solar home system and mini-grid system to be sustainable, affordable and environmental friendly.

This paper aims to describe the high potential of solar energy, current situation of solar energy implementations and the important of Renewable Energy of Myanmar respectively.

Why is solar energy important for rural electrification in Myanmar?

Due to lack of water in summer season in Myanmar, Solar Energy will be a vital role in Electricity generation because of the high sunshine hours for that time.

Therefore, the government of Myanmar is trying to increase the utilization of solar energy for the rural electrification.

Why is solar energy on the rise in Myanmar?

(Xinhua/Myo Kyaw Soe) YANGON, Oct. 5 (Xinhua) -- The adoption of solar energy in Myanmar is on the rise due to increasing oil prices and electricity costs, Thi Thi Soe, deputy general manager of Sandisolar, a Myanmar-based Chinese new energy company, told Xinhua on Friday.
